Top Skills

Creative Entrepreneurship
Social Entrepreneurship
Entrepreneurship Development

Languages

English (Full Professional)
Kannada (Native or Bilingual)
Hindi (Elementary)

Certifications

Convolutional Neural Networks
Problem solving intermediate
Juniper Networks Certified Associate
- Junos (JNCIA-Junos)
Global Entrepreneurship and
immersion in collaboration with
University of Massachusetts, Lowell
(USA)
All Rounder Award - Media &
Content Delivery Team AWS Q4
2424

Honors-Awards

Young App Developer
1st Price at Open House Project,
KLE Technological University
2nd Price in Intel Ideation camp

Vaishakh I Kuppast

Sys Dev | Cloud DevOps | Cloud Architect | Edge/CDN Specialist
| Media Expert | AI AGI Enthu | Ex-Founder EdTech | 3x AWS
Certified
Karnataka, India

Summary

| Coder | Developer | Designer | Innovator | Visionary |
>> Always adrenaline rushed to innovate and learn new things!

Cloud engineer and developer focused on building innovative, scalable solutions. I specialize in cloud architecture, automation, and app/web development, always eager to tackle new challenges and deliver impactful results.

Experience

Amazon Web Services (AWS)
6 years 2 months

System Development Engineer - AWS Security Hub CSPM
March 2025 - Present (1 year 1 month)
Bengaluru, Karnataka, India

Delivering critical security controls in AWS Security Hub CSPM(Cloud Security Posture Management). Protecting millions of AWS customer resources from security incidents, by enhancing threat detection and security monitoring via these controls. Led code reviews and achieved increased team productivity by developing AI-powered development tools.

Specializations: AWS Security Hub • Cloud Security Architecture • Security Control Implementation • AI Development Tools • Technical Leadership

2 fully shipped controls now serving AWS customers globally, and more to get shipped!

- [ELBV2_LISTENER_ENCRYPTION_IN_TRANSIT](https://docs.aws.amazon.com/securityhub/latest/userguide/elb-controls.html#elb-18)

- [COGNITO_IDENTITY_POOL_UNAUTH_ACCESS](https://docs.aws.amazon.com/securityhub/latest/userguide/cognito-controls.html#cognito-2) (self-proposed)

Core Technical Skills:

- AWS Security Hub Development
- Cloud Security Architecture
- Security Control Implementation
- AWS Config & CloudFormation
- Python Development
- Infrastructure as Code (CloudFormation)
- Multi-Region Deployment
- Container Security
- AI/ML Security Controls

Cloud Engineer II - Media & Content Delivery

April 2023 - Present (3 years)

Bangalore

- Developed expertise in AWS Edge/CDN, serverless architecture to optimize global content delivery performance and scalability
- Led mission-critical live streaming operations for IPL events, ensuring 99.99% uptime for 25M+ concurrent viewers worldwide
- Built automated diagnostic tools with Python and LLMs, reducing troubleshooting time by 50%
- Designed 20+ hands-on challenge labs across 50+ AWS services, reducing onboarding time for new engineers by 40%
- Optimized edge computing infrastructure for global content delivery and low-latency streaming
- Mentored junior engineers and conducted technical training sessions on cloud architecture and edge technologies
- Earned "Most Valuable Player" recognition for exceptional contributions to Media and Content Delivery initiatives
- Delivered high-quality support across services like CloudFront, S3, MediaLive, SES, Workmail, Lambda@Edge, ELB and Route53.

Cloud Engineer I - Storage & Content Delivery

August 2021 - March 2023 (1 year 8 months)

Bangalore india

- Drove cross-functional technical solutions for critical content delivery and storage challenges, improving service reliability and performance.

- Developed internal tools using Python and shell scripts to automate diagnostics and troubleshooting.
- Led complex RCA investigations and mentored new engineers on deep-dive debugging.
- Developed scenario based training labs to accelerate onboarding for 200+ new engineers.
- Delivered high-quality support across services like Elastic Load Balancers, Web Access Firewall(WAF), S3, Ec2 instances, VPC, Network routing and DNS(Route DNS)

Cloud Solutions Associate - Networking
 August 2020 - August 2021 (1 year 1 month)
 Bengaluru, Karnataka, India

Delivered technical expertise for AWS networking services (ELB, WAF, S3), resolving 50+ complex issues.

Intern
 February 2020 - July 2020 (6 months)
 BANGLORE

Started working as intern in Amazon web services.

KLE Technological University - Hubballi (India)
 Undergraduate Student Researcher
 July 2019 - July 2020 (1 year 1 month)
 Hubli, Karnataka, India

Project Title: Dynamic Spatio-temporal Updates for Augmented Reality

- Conducted research on 4D reconstruction frameworks using RGB-D images to generate spatio-temporal models with low-latency updates.
- Developed a 4D player Android application in Unity with Vuforia SDK to visualize and interact with dynamic 3D/4D models using ArUco markers.
- Implemented key computer vision techniques including point cloud generation, compression, model decimation, and glTF conversion for efficient rendering on resource-constrained devices.
- Designed and tested real-time model reconstruction pipelines using Time-of-Flight (ToF) camera data, achieving accurate volumetric and non-rigid motion reconstruction.

- Published live demos of reconstructed models on Sketchfab, showcasing human body motion, animation sequences, and real-world object movements.
- Explored applications in augmented reality, holographic conversations, cultural heritage preservation, and interactive 3D visualization.

Make in BVB (MiB)

Innovation Evangelist

April 2018 - January 2020 (1 year 10 months)

Hubli, Karnataka, India

Worked with MAKE in BVB (KLE Technological University), aligned with the 'Make in India' initiative, focusing on ideation and early-stage innovation.

During my time at MIB, I was actively involved with innovation and entrepreneurship cell, established to promote the spirit of the 'Make in India' mission within the campus. Our core objective was to identify, nurture, and accelerate early-stage ideas from students and help them evolve into viable startup concepts.

I played a key role in planning, organizing, and executing various events and initiatives at both the college and state levels. These included:

- Startup bootcamps to educate students on business models, MVP development, and market validation
- Ideation challenges and hackathons to encourage creativity and cross-disciplinary collaboration
- Workshops and mentoring sessions with industry experts and successful entrepreneurs
- Demo days and pitch sessions where students presented their ideas to panels of investors and mentors for feedback and potential support

SAMSUNG R&D INSTITUTE INDIA - BANGALORE PRIVATE LIMITED

Samsung PRISM AI Researcher

August 2018 - December 2019 (1 year 5 months)

Bangalore

- Developed and deployed machine learning models for multimodal emotion recognition and multi-oriented text detection.
- Collaborated with college students to generate datasets for training, enhancing model accuracy.

- Optimized heavy ML models for deployment on resource-constrained Android devices, ensuring efficiency without compromising performance.

Aura VR Education

CEO and Founder

January 2019 - November 2019 (11 months)

Hubli-Dharwad, Karnataka, India

- Founded Aura VR Education, a startup focused on transforming education through immersive 3D technology.
- Led a team of six experts to create interactive 3D models for complex subjects like mechanical engineering and biology.
- Enhanced visual learning by enabling students to manipulate models, bridging the gap between theory and practical understanding.

Rishtas.in Matrimonial website

Freelance Developer

January 2018 - August 2018 (8 months)

Hubli Area, India

- Designed and launched the “Rishtas.in”(also previously know as PINK) matrimonial app & website.
- Architected and developed a zero-cost serverless matrimony platform serving 1000+ community members, leveraging GitHub CDN and Google Cloud's free tier (AppScripts, Firebase, Mail APIs)
- Oversaw the entire project lifecycle, from UI/UX design to back-end integration.

Education

KLE Technological University - Hubballi (India)

BTech - Bachelor of Technology, Electrical, Electronic and Communications Engineering · (2016 - 2020)

University of Massachusetts Lowell

Global Entrepreneurship and Innovation Program, in collaboration with KLE Technological University · (December 2018 - January 2019)

KLE Technological University - Hubballi (India)

Minor Degree Btech, Computer Science · (2017 - 2020)

Pace PU College

PUC, Science · (2014 - 2016)

Sandeepani English Medium High school

SSLC, English · (2013 - 2014)
